The new fund will run annually from now, concluding in Spring 2028. More than £3m in grants will be awarded during this time. This fund will support communities during prolonged power interruptions caused by storms, aid their ability to cope in periods of severe weather, and will now also support the adoption of new low-carbon technologies by non-profit organisations.</p> <p>The fund is split into two categories; community-led physical and environmental resilience, and Low Carbon Technology (LCTs).</p> <p>The new community-led physical and environmental resilience grants. Grants of up to £20,000 will be awarded to successful applicants in this category.</p> <p>Note: SSEN is aware there are often lengthy lead times associated with community project preparations, as well as getting approval to connect some low carbon technologies. In light of this, SSEN is advising applicants to consider projects that have already been approved to apply in the current round, as the timescales for awarding and spending funds may be more likely to align. Those who are uncertain of their timescales can contact colin.mcmillan@sse.com to discuss this in more detail.</p> <p>Applicants are asked to consider the criteria in the fund guidelines. The application documents can be downloaded on the SSEN website www.ssen.co.uk/pcnz. This gives full details of what can be supported by the fund as well as guidance on which projects will be prioritised. The PCNZ Fund Panel, will review applications and determine which projects should receive funding, with the successful applications announced in late October. More information can be found on the news article on the SSEN website.</p>

It is hosted by Corra Foundation.</p> <p>Three grants have been made in the first stage of the Fund's work. These reflect a range of approaches to supporting people and communities to power social change and secure justice. They will offer valuable learning for everyone involved in helping turn rights into reality in Scotland. The three initial grants are:</p> <p>STARCATCHERS (£50,000 PROJECT FUNDING OVER TWO YEARS) Starcatchers support the rights of babies and younger children. They have worked for 18 years, primarily in Wester Hailes and Fife, with a focus on: community engagement, productions, early years development, and advocacy. Making Rights Real anticipates improvements in Travellers' sites, improved budget equality processes and access to healthcare for women and girls. The work will also contribute to movement building, funder and civil society knowledge exchange, and connections with academia.</p> <p>ENVIRONMENTAL RIGHTS CENTRE FOR SCOTLAND (£75,000 CORE FUNDING OVER THREE YEARS)</p>

		<p>Environmental Rights Centre for Scotland (ERCS)'s work is focussed on environmental rights and supporting people to fulfil these and protect the environment. ERCS does this in four main ways: awareness raising of rights and remedies and supporting participation in environmental decision-making; advice, assistance and representation to access justice and hold duty bearers to account; advocacy in policy and law reform; and strategic interest public litigation to tackle systemic environmental problems. The funding will enable development of activity across these four areas, in particular establishment of a new ERCS-owned law firm to undertake legal representations and function as a law centre.</p> <p>Beyond these initial grants, the next stage will see the Fund open to applications in the Summer. Decision making will be guided by people with a range of expertise, both lived and learned, on human rights.</p> <p>Please visit the Independent Human Rights Fund page or sign up to Corra's funding bulletin to receive updates.</p>
